FRANK H. GILCREAS,

Town Clerk.

Report of the Superintending School Committee, Dixfield

The Superintending School Committee recommend the following appropriations for the support of schools during the ensuing year.

We shall need for the support of Common Schools fifteen hundred and fifty dollars (\$1,550.00). This amount includes the cost of instruction, conveyance, fuel, lights, tuition and janitor service.

We shall need for books and supplies the sum of two hundred dollars (\$200.00).

For our share of superintendence we shall need an appropriation of one hundred and fifty dollars (\$150.00).

For the support of a "Class A", High School, during the ensuing year, the town should vote to raise the sum of one thousand dollars (\$1,000.00). Five hundred dollars to be raised by the town. Under this class the town will receive from the State five hundred dollars (\$500.00).

The balance of the laboratory, insurance and repair funds will be sufficient for the ensuing year.

Respectfully submitted,

WILLIAM W. WAITE, } *School Committee*
WILL S. MARBLE, } *Town of*
GEORGE WALTERS, } *Dixfield*

Superintendent's Report

To the Superintending School Committee, Dixfield.

I have the honor to present for your consideration my first annual report of the condition and progress of the public schools of the town.

It will be impossible for me in this report to discuss fully any one characteristic of educational work here. I must confine myself to a report of the progress, the changes, and the general condition of the schools during the short time that I have been connected with them.

TEACHERS

It was necessary, before the schools opened for the fall term, to elect a principal for the high school, a teacher for the grammar school, and several teachers for the rural schools. Usually, applicants for positions are interviewed and even elected before the closing of the school year in June; but, in this case, we had little over one month in which to elect teachers and make the other necessary preparations incident to opening the schools.

We were very fortunate in securing the services of Mr. Parker M. Cooper as principal of the high school, for he undertook the care and management of the school and the school building with an energy and tact which would have done justice to a man of many years' experience in school work. His judgment has never been at fault and he has been ready and willing at all times to do everything in his power to promote the welfare of the school. His work has won the admiration of pupils, parents, and school officials.

Mr. Cooper has been ably assisted by Miss Verrill who has done excellent work. She has raised the standard of the college preparatory course by her excellent work in Latin and she has won the esteem of all by her efforts to please.

Miss Davis was elected to teach the grammar grades and in one term she brought order out of chaos. She has worked conscientiously for the best interests of the school and though strict in discipline, she has won the love and confidence of her pupils.

Miss Deering's room opened in the fall term with a registration of fifty-two and the attendance has been over fifty ever since. It would be difficult to find a teacher with three grades (third, fourth, and fifth) and a total of fifty-two pupils as patient and pains-taking as Miss Deering is. She is intensely interested in her work and she gains the attention and interest of her pupils in a manner that is worthy of admiration. We owe much to her efforts.

Mrs. Lane's work needs no special mention on my part, for her worth and excellence as a teacher are known to all. She is a teacher far above the average, and we are very fortunate to have her with us. Her work with the little people is most interesting and it is wonderful to see what she accomplishes in two years. We could not find a better teacher than Mrs. Lane.

Excellent work has been done by the rural teachers this year and I feel satisfied that they have accomplished a great deal. They are working under conditions which are not very favorable and which can never be corrected until we are able to consolidate the rural schools, but I feel that with the teachers we have had this fall and winter, the rural schools of Dixfield are much better than the average.

PROGRESS

The purpose of education is to make good citizens. One mark of a good citizen is that he renders to the community a just equivalent for all he receives from it. He must not do less; he may do more. He has the capacity for productive labor of muscle or mind, and sufficiently strong motives to impel him to use it. No matter how good a man may be as an individual, he is not a good citizen unless he is able to

make an honest living for himself and for those dependent upon him. He is neither a good man nor a good citizen if, having capacity, he is too lazy or too dishonest to apply it rightly, and undertakes, whether as a beggar, a thief, or an idle millionaire, to get a living from the community without giving equivalent service.

The same applies to the woman as well as to the man. A woman's service to the public may be the same as a man's, or it may be different; but if the community is richer, materially or spiritually, because she lives in it, then the woman is a good citizen.

Therefore, the public schools must cultivate in the young citizen a capacity to do something the world needs done, and to stir his ambition and strengthen his will to do it. They must equip him with the ability to work intelligently and skilfully, and the teaching must fill them with a sense of their profound obligation to work.

We can make no progress in our schools unless we attain the end for which the State has established a system of education and the progress, in any case, is not readily apparent unless the child is imbued with the desire to work hard in the school room to fit himself for the work which is to come.

During one short term I have been impressed by the manner in which all work has been done in the grades and in the high school and I have noticed considerable progress. The work in spelling has, in particular, shown great improvement not only in the regular spelling lessons, but in language work and composition writing. This is especially true in the high school where spelling was introduced early in the fall term. The progress made in this branch is very gratifying, since spelling, more than anything else, distinguishes the letter or other written work of the educated man from the effort of the man who has not been fortunate enough to have received a good education.

Great improvement is noticeable in the reading, also. In the grades the pupils use more expression and read with more understanding than they did at the beginning of the term. This is due entirely to the efforts of the teachers who are working hard to attain perfection in this branch.

By the time the pupil is ready to enter the high school he should be able readily to set down on paper somewhat of his knowledge, or thought, or feeling, in such form as shall show that he is familiar with the requirements of a good composition. He should be able to express himself fully and with sense so that he might use this facility of expression to advantage in his work if his education ends here. Such readiness, however, cannot be attained except as the result of constant, intelligent, and interested practice, and the practice should be in every subject which the pupil has thought to express.

It was found necessary at the beginning of the fall term to introduce a systematic course of work in composition as the pupils seemed woefully weak in this branch. In the grades, the work is now given more attention and in the high school the freshman and sophomore classes must write two themes each week while the junior and senior classes are required to write one theme each week. In addition to this, the number of hours given to the study of English was increased from fifteen to twenty. The results have justified the extra work, for great progress has been made in one term. This is very encouraging, for the work is of practical value and, therefore, important.

ATTENDANCE

The attendance during the past year has been good. The average attendance was 89 per cent. which is one per cent. higher than the year before. This is a very good average, but it is not impossible for us to attain an average of over 90 per cent.

We owe this high average, in a great measure, to the co-operation of parent and teacher. The better the attendance in the school room, the greater the progress attainable, and hence, the necessity of harmony in the relations of parent and teacher. The surest safeguard against conflict between home and school is mutual understanding and co-operation. The mental and moral advancement of the pupil depends upon the parent and the teacher, and when both work together for the child, his development must be rapid and proper.

Mr. Dockham has aided materially in keeping up the attendance by his strictness in regard to truants. There are always a few who bother in this respect, and he has compelled them in every case to go to school. He has gone about his work with decision and energy and has been very effective in obtaining required results.

REPORTS AND STATISTICS

The Science Hill School, the Severy Hill School, and the Dunn School have had an average attendance of less than eight during the past school year. According to Sec. 2, Chap. 15, Revised Statutes of 1903, these schools must be suspended unless the town votes to maintain them during the ensuing year.

An examination of eyes and ears conducted in accordance with Chapter 73, P. L. 1901, shows the following results:

Total number examined.....	199
Defective in sight.....	19
Defective in hearing.....	2
Parents and guardians notified.....	15

Following the superintendent's report are the reports of the high school principal, the truant officer, the statistical table of attendance, the teachers' directory, and the financial statement. I would ask that these be given careful attention.

In looking over the financial statement it will be noted that there are some large unexpended balances. These have resulted from the efforts of the members of the school committee to obtain the best possible results with the least expenditures, and they have been so successful in their attempts to reduce the cost of maintaining the schools that the appropriations asked for this year amount to \$1000.00 less than last year. At the same time the salaries of a number of teachers have been raised. This shows that the decrease in expenditures has not been made at the expense of the teachers, but has resulted from the fact that the members of the school committee have used judgment and tact in all financial dealings.

CONCLUSION

In closing, I wish to express my gratitude to the teachers for their readiness to assist me in everything tending to the betterment of the schools. The encouragement of their loyalty has been of great assistance to me.

The citizens I wish to thank for their hearty co-operation with teachers and school officers in their efforts to obtain a high standard of excellence in the schools of this town. Their sympathy and help is greatly appreciated.

It is absolutely necessary that harmonious relations should exist between all the agencies that labor in our field of education. The higher the character of our school boards, the greater and more lasting must be the benefits that will come to our public school system in general. The personnel of the school committee has exerted a great influence for good. The members have worked in harmony with the superintendent, giving him constant support, and whatever advancement has been attained its members are responsible for it.

Respectfully submitted,

W. S. McNAMARA,

Supt. of Schools.

**Report of the Principal
of the Dixfield High School**

To the Superintendent of Schools:

I herewith submit my first report as Principal of Dixfield High School.

The school year opened Sept. 12, with an attendance of twenty-four pupils in the high school, and it is a pleasure for me to state that an excellent attendance was maintained throughout the term, the average attendance being 23.22 or 96 $\frac{3}{4}$ %. At the opening of the winter term the number registered was twenty-two with the average attendance for the first four weeks slightly lower than that of the previous term. This was due mostly to sickness. The students are to be commended on their attendance and promptness; were it not for the usual two or three an exceedingly high mark would have been attained.

The standard of work done by the students is, I believe, a credit to your high school and to the younger element of your society; especially is this manifest in the three upper classes and they cast the shadow of success and credit upon the untiring efforts and unlimited interest of the teachers who have preceded me. In the entering class, I must admit, there are some who are not prepared for work of the grade which should be taught during the first year and we are laboring under difficulties with them.

It is, or at least should be, the aim of a teacher in the public schools to strive for the practical, every-day demands of the boys and girls who will soon be men and women. I believe that in your schools you have teachers who are working with this idea in view. This idea is to develop the power of reasoning and to broaden the mind, preparing them to meet the problems of life.

Discipline is one of the essentials if not the essential element of a successful school; and I wish to state here the sincere appreciation I feel for my co-workers in establishing good discipline both in and out of the school room.

Mr. Superintendent, you were very fortunate in the choice of the teacher for your grammar grades; from my own observation and from the reports of individuals I can truly say that from what was chaos, good order has been established by her. This is a long stride in the right direction.

The course of study submitted by you is, I believe, well balanced and meets with my approval. The College Preparatory Course fulfills all the requirements for entrance to college as well as being of educative value to those who will not pursue further study. The Scientific Course is designed particularly for those who will complete their school work in the high school. A course in Commercial Arithmetic is being made possible and is a valuable increment to the education of the secondary school graduate, especially if he meets with the business affairs of life to any extent.

The courses in Latin have been raised to a higher standard than in previous years. Latin, although perhaps not directly applicable to every-day life, is a subject which broadens the mind, a fact so often overlooked by the average student. I believe that Latin should be compulsory.

All efforts and progress in this branch of study are due to Miss Verrill.

The laboratory has been provided with fifty dollars worth of new apparatus needful to a good course in Physics. Physical laws and principles are being taught which cannot help but be of value to the students later on in life's work.

A course in Mechanical Drawing has been established in both the high and grammar schools. This is a stepping stone to the study of draughting and can be made use of by

all the boys. Needle work has been carried on in both the above named schools. This is a valuable asset to the education of the girls.

The high school league has procured a piano which is a desirable object in any school room. The league intends giving a drama in the near future, the proceeds to go toward paying for the piano. The other improvement leagues are busy and have purchased several desirable and useful articles.

Our best schools are those in which parents, pupils and teachers all have a common interest and feeling and mingle together. The parents can help us very materially by keeping up the school interest in the children at home. We wish that more of the parents would visit our schools and note the work done. The education of the children is of such great importance that it should not be overlooked by the parents and so we ask that you, parents, show more interest and call on us more frequently.

In the intermediate grades Miss Deering is continuing her high standard of work, laboring with fifty-two boys and girls in one room. This is twice the number a teacher should have in order to do her best work.

In the primary grades Mrs. Lane's work needs no mention. Call at her room any time and all is attention. The little people progress rapidly under her skilful management.

Mr. Dockham has been prompt and effective in all his duties as truant officer and the good attendance is due in great measure to his faithful work. We trust that Mr. Dockham will remain with us in this capacity for many years.

I might mention numerous changes and improvements which would meet with much satisfaction, but all these cost money and I am so well pleased with things as they exist that it seems fitting to extend to the citizens of the town my admiration for their school building and its equipment,

rather than to place here my wants and criticisms. For the present I think that the equipment meets all demands, but with an increase of a few more pupils some additions will have to be made. The high school will graduate six members this spring, but from all appearances their places will be filled and a few more seats will be needed as the room is full now.

In conclusion, I wish to thank you in behalf of the teachers and myself for the helpful suggestions which you have given and for the encouragement you have given us by your congenial manner and your interest in the welfare of both teacher and pupil and in behalf of the community at large for making its schools better.

Yours very respectfully,

PARKER M. COOPER,

Prin. Dixfield High School.

Truant Officer's Report

To the Superintendent of Schools, Dixfield:

I respectfully submit the following report of my services as truant officer for the school year ending Feb. 1, 1912.

No. of cases of absence from school investigated.....	70
Number of truants returned to school, 29	
Number of excusable absences.....	41

I had a call from East Dixfield but as it is a union school (Wilton and Dixfield) and as the truant officer in Wilton was some miles nearer and as it would be less expensive, I notified him. I was called to Dixfield Center twice and to Lancaster school once.

Respectfully yours,

GEORGE W. DOCKHAM,

Truant Officer.

Warrant For Annual Town Meeting

STATE OF MAINE:

OXFORD, S. S.

To Joseph P. Edmunds, a constable of the town of Dixfield in the said county.

Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Dixfield qualified by law, to vote in town affairs to assemble at Tuscan Opera House in Dixfield village in said Dixfield on the first Monday of March, A. D. 1912, being the fourth day of March, at ten o'clock in the forenoon to act on the following articles, to wit:

- Article 1st To choose a Moderator to preside at said meeting.
- 2d To choose a Clerk for the ensuing year.
- 3d To choose Selectmen, Assessors and Overseers of the poor for the ensuing year.
- 4th To choose a town Treasurer for the ensuing year.
- 5th To establish a rate for collecting taxes and to choose a Collector of taxes for the ensuing year.
- 6th To see if the town will vote to choose one or more Road Commissioners for the ensuing year.
- 7th To choose one or more members of the School Committee.

- 8th To choose all other town officers for the ensuing year.
- 9th To see if the town will vote to accept the report of the Municipal Officers for the year ending February 15, 1912.
- 10th To see if the town will vote to authorize and direct the Municipal Officers to transfer unexpended balances of appropriations from the past fiscal year to the same accounts for next year.
- 11th To see what sums of money the town will vote to raise for the maintainance and support of schools, to purchase school books and supplies, to repair school houses, permanent school fund, to pay outstanding time orders due, to pay interest on outstanding time orders, to pay Municipal Officers, including Select men, Town Treasurer, Clerk, Tax Collector, Constable, School Committee, Truant Officer, Dog Constable, to pay hydrant rental, Public Library, to care for the poor, to repair roads and bridges, interest on cemetery funds and all miscellaneous expenses and defray all other charges.
- 12th To see if the town will vote to continue the Class "A" of Free High School and how much money the town will vote to raise for the support of the same.
- 13th To see if the town will vote yes or no upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine for the year 1907 as amended by Chapter 69 of the Public Laws of 1909, relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1912.

- 14th To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$400.00, being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69, Public Laws of 1909, or such sum of money as it see fit.
- 15th To see if the town will vote to continue Union School District, with town of Mexico.
- 16th To see what sum of money the town will vote to raise for the proper observance of Memorial Day.
- 17th To see what sum of money the town will vote to raise to pay the salary of the Union District School Superintendent for the united school districts of Dixfield and Mexico for the fiscal year 1912-'13.
- 18th To see if the town will vote to continte the school in the Dunn district.
- 19th To see if the town will vote to continue the school in the Severy Hill district.
- 20th To if see the town will vote to continue the school in the Science Hill district.
- 21st To see if the town will vote to take and pay for four Electric Lights to be placed on the Dixfield Street of East Dixfield.
- 22d To see if the town will vote to imburse Geo. P. Stanley to the amount of \$28.31 on account of connecting with the sewer.
- 23d To see if the town will vote to pay the Truant Officer a salary of \$35.00 for the ensuing year.

- 24th To see if the town will vote to accept from the members of the Grand Army of Dixfield the sum of one hundred dollars, the same to be held in trust by said town and the interest on same to be used yearly on Memorial Day to place flags at the grave of each deceased soldier of the Civil War at the several Cemeteries in said town and to decide what rate of interest shall be allowed on the same.
- 25th To see if the town will vote to authorize the Selectmen to pay \$1,000.00 on temporary loan.
- 26th To see if the town will vote to pay the Selectmen more salary.
- 27th To see if the town will vote to enlarge Greenwood Cemetery and how much they will raise for same.

The Selectmen give notice that they will be in session for the purpose of revising and correcting the list of voters at Tuscan Opera House at nine o'clock in the forenoon on the day of said meeting.

Given under our hands at Dixfield, this 15th day of February, A. D. 1912.

FRANK H. GILCREAS,

Town Clerk.

Report of the Superintending School Committee

It is the pleasure of the School Committee to present to the citizens of Dixfield their Annual Report.

We shall need an appropriation amounting to seventeen hundred dollars (\$1,700.00) for support of Common Schools during the ensuing year. This amount includes the cost of instruction, conveyance, janitor service, fuel, lights and tuition.

We shall need for books and supplies for the ensuing year the sum of three hundred dollars (\$300.00).

We shall need for repairs the sum of one hundred dollars (\$100.00).

For the support of a "Class A" High School during the ensuing year, the town should vote to appropriate and expend the sum of one thousand dollars (\$1,000.00). Five hundred to be raised by the town. Under this class the town will be reimbursed by the State to the amount of five hundred dollars (\$500.00).

There should be an appropriation of twenty-five dollars (\$25.00) for insurance.

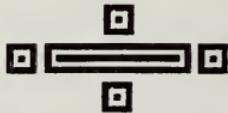

The balance of the laboratory funds will be sufficient for the ensuing year.

For our proportion of superintendence we shall need to vote to expend the sum of two hundred and ten dollars (\$210.00). Mexico increasing the amount paid for superintendence making it necessary that the town pay sixty dollars (\$60.00) more than the town has raised in the past.

As there is an unexpended balance in the superintendence account of forty-six dollars and twenty-five cents (\$46.25) the town will only have to raise for the ensuing year the sum of one hundred sixty-three dollars and seventy-five cents (\$163.75).

Respectfully submitted,

WILLIAM W. WAITE,
WILL S. MARBLE,
GEORGE WALTERS, } *School Committee
Town of
Dixfield*

Report of the Superintendent of Schools

To the Superintending School Committee, Dixfield.

I have the honor to present for your consideration my second annual report of the condition and progress of the public schools of the town.

Common Schools

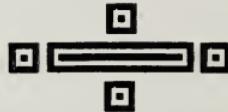

During the spring term it became evident that something must be done before another fall to relieve the congested condition in the Central building. We had three teachers taking charge of over 120 pupils and one of these teachers, Miss Deering, had over fifty pupils in her room at one time. No teacher can do justice to her work or herself when she has over forty pupils in one room, and then they must be all of the same grade. Not only did Miss Deering have fifty children or over in one room, but she had three grades as well. Under such conditions the work could not progress as rapidly as it should, for it was almost an impossibility to give a child the individual attention he needs so much, especially in the younger years of his school life.

In the upper grades, where it is so necessary to give a special and thorough drill to pupils preparing for high school, we were greatly handicapped, for Miss Davis had charge of the sixth, seventh and eighth grades with a total registration of thirty-six pupils. Such a condition was manifestly unfair to both teacher and pupils and when it became apparent that matters would be worse in the fall when each grade advanced and the new children would enter for the first time, the need of a different arrangement became imperative. Under the circumstances it

As there is an unexpended balance in the superintendence account of forty-six dollars and twenty-five cents (\$46.25) the town will only have to raise for the ensuing year the sum of one hundred sixty-three dollars and seventy-five cents (\$163.75).

Respectfully submitted,

WILLIAM W. WAITE,
WILL S. MARBLE,
GEORGE WALTERS, } *School Committee
Town of
Dixfield*

Report of the Superintendent of Schools

To the Superintending School Committee, Dixfield.

I have the honor to present for your consideration my second annual report of the condition and progress of the public schools of the town.

Common Schools

During the spring term it became evident that something must be done before another fall to relieve the congested condition in the Central building. We had three teachers taking charge of over 120 pupils and one of these teachers, Miss Deering, had over fifty pupils in her room at one time. No teacher can do justice to her work or herself when she has over forty pupils in one room, and then they must be all of the same grade. Not only did Miss Deering have fifty children or over in one room, but she had three grades as well. Under such conditions the work could not progress as rapidly as it should, for it was almost an impossibility to give a child the individual attention he needs so much, especially in the younger years of his school life.

In the upper grades, where it is so necessary to give a special and thorough drill to pupils preparing for high school, we were greatly handicapped, for Miss Davis had charge of the sixth, seventh and eighth grades with a total registration of thirty-six pupils. Such a condition was manifestly unfair to both teacher and pupils and when it became apparent that matters would be worse in the fall when each grade advanced and the new children would enter for the first time, the need of a different arrangement became imperative. Under the circumstances it

was thought best to add another teacher to the staff, making a total of four and give each teacher two grades—Mrs. Lane to retain the primary, first and second grades.

Under the new arrangement it was necessary to have another room and after much deliberation it was decided to turn the upper hall into a school room. This was done during the summer vacation and the hall is occupied at present by the fifth and sixth grades under Miss Gladys A Luce.

The conditions in this new room are very undesirable as the teacher and pupils must be disturbed every half hour by classes passing from the high school room to the laboratory and also by pupils passing to and from the high school and the seventh and eighth grades. The light is very poor and it is very difficult to regulate the temperature. I trust that we shall not be compelled to keep the fifth and sixth grades in these temporary quarters for more than another year. At the present rate of increase an addition must be made to the building within a few years and the sooner it can be done, the better it will be for all.

While the arrangement in regard to using the upper hall as a class room is not desirable as a permanent one, nevertheless the result of employing an additional teacher has more than exceeded our expectations in one short term. The progress in the third, fourth, fifth, sixth, seventh, and eighth grades is far in advance of what it was last year at this time and in another year, when all have adjusted themselves to the new conditions, the advancement will be even greater.

We were fortunate in being able to retain Mrs. Lane, Miss Deering and Miss Davis this year. No good ever comes of having new teachers every year as it takes a teacher practically a year to become accustomed to her work in new surroundings and under new conditions. The second year is always the year that a teacher begins to do her best work and each succeeding year makes her more valuable.

Mrs. Lane has been with us about five years now and her work needs no special mention from me, for we all realize just how valuable she is to us. Her work with the little people has done more to raise the standard of our schools through each successive grade than any one thing I know. I trust that she may be retained indefinitely.

Miss Deering is doing excellent work in the third and fourth grades. Although we have endeavored to relieve the congestion in this room, she has nearly fifty pupils in those two grades this year; but with a small entering class from Mrs. Lane's room we trust that conditions will eventually adjust themselves. This is Miss Deering's third year with us and we trust that we may have the benefit of her services for many more years.

Miss Davis' room at present contains twenty-four pupils and with only two grades she is able to devote a great deal of time to each pupil. The results here are very gratifying and show much improvement over last year. Miss Davis is a valuable teacher and is doing good work. We hope to retain her.

Miss Luce, the new teacher, is teaching under adverse conditions, but her grades are working hard and evincing much interest in their work. It is not possible to do the best work in this room, but Miss Luce is obtaining very good results and another year will show great improvement.

High School

The high school opened in the fall with a registration of thirty-one, a large increase over last year. Such an increase is a sure indication of progress not only in the high school, but also in the grades as well, for it shows that the grades are reaching a standard of efficiency which results in all pupils receiving a sufficient preparation for high school instead of two or three each year. The above increase au-

gurs well for the future of our high school since it shows that the courses given there are meeting with general satisfaction on the part of parents and pupils and that a student in Dixfield High School now receives a course of training which *will* fit for college without any conditions whatsoever.

In connection with the above, I wish to call attention to the fact that the University of Maine last spring modified the entrance conditions so as to allow graduates of Class "A" high schools approved by the State superintendent admittance to the university without examination. It is a pleasure to state that Dixfield High School is in that class.

Mr. Cooper is working hard to have Dixfield High School approved by the New England Enterance Certificate Board so that graduates of our high school may enter any college in New England represented by that board. As this representation consists of nearly every college in our New England States, it can readily be seen what advantages would be obtained from such approval. We hope that a year from this spring we may be able to obtain a trial certificate.

The annual prize speaking contest between the high schools of Rumford, Mexico and Dixfield will take place sometime this spring and I would urge that greater enthusiasm be shown in this matter. We have excellent material here in Dixfield and there is no reason why we should not be represented. It is not the prize as much as the training and the benefits derived from the training that count and then again the recognition enjoyed by the fact that participants from our high school can compete on equal terms with students from other high schools, is of great value.

Mr. Cooper's work in the high school has been of inestimable value. The high school has grown and prospered during his regime and it must be apparent to everyone that we have been very fortunate in having a man of his ability

here with us. We trust Mr. Cooper will be with us again next year, but it is difficult to retain a man of his qualifications on the salary paid here.

Miss Drew has done excellent work in the short time she has been with us. She is thorough and up-to-date and we consider ourselves fortunate in having secured her services.

Rural Schools

The rural schools have prospered during the year because of the fact that we have been fortunate in our choice of teachers and because pupils have taken a great interest in their work. The parents have been ever ready to help and have given the teachers any and all assistance necessary. The harmonious relations between parents and teachers in the rural districts is a source of great satisfaction, for it is very rarely that any complaints are made and the school work, as a consequence, is greatly encouraged.

The school at the Center kept for thirty weeks this year and I would suggest that the other rural schools be given the same number of weeks next year. Whatever may be said, there can be no substantial argument against this plan, for it means so much for each and every child in the rural schools. When we consider that in ten years, which is the average time a child spends in the common schools, the village schools keep sixty more weeks than the rural schools, it is plainly evident that the child in the rural school is more than two years behind the child in the village school. The school year should be the same length in the rural districts that it is in the village, but I would suggest a trial of thirty weeks first.

I do not wish to leave this subject without a reference to the consolidation of the Towle, Lancaster and Center schools. This subject has been discussed so much that there is no need of my adding to it, but I do believe that if the citizens in those three districts would advocate such a

plan, there would be no opposition from the people in other parts of the town.

Attendance

The attendance has fallen off one per cent. during the past year, in spite of the fact that conditions have been ideal. There has been no sickness and the weather has not been severe, yet Mr. Dockham has had more to attend to in the way of attendance than ever before. This is a matter that we cannot be too careful about. In the fall term, for instance, there was a total registration of 217 pupils and an average attendance of only 187. This means that about thirty were absent every day. When we consider what it costs to maintain our schools it will be seen that we are wasting many dollars each day. This matter is clearly up to the parents and I would urge that greater pains be taken to correct this fault. I trust that the statistics for next year will show an attendance of over 90 per cent.

Mr. Dockham has been a very efficient truant officer. His experience in this position gives him a power that would be utterly lacking in a new man and I would ask that steps be taken to raise the truant officer's salary, for Mr. Dockham feels that he cannot do the work again for the small sum raised for that purpose.

Reports and Statistics

The Dunn school has had an average attendance of less than eight during the past year. According to Sec. 2, Chap. 15, Revised Statutes of 1903, the school must be suspended unless the town votes to maintain it during the ensuing year.

An examination of ears and eyes conducted in accordance with Chap. 73, P. L. 1901 shows the following results:

Total number examined.....	200
Defective in sight	26
Defective in hearing	19
Parents notified.....	13

Following the superintendent's report are the reports of the high school principal, the truant officer, the statistical table of attendance, the teachers' directory and the financial statement. I would ask that these be given careful attention.

The school board, by careful management, succeeded in cutting down expenses last year so that the appropriations asked for were over \$1,000.00 less than the year before. This year the appropriations asked for will naturally be a little larger than last year as our unexpended balances are not so large, but the amount asked for will be only about two hundred dollars more than last year and over eight hundred dollars less than that of 1911.

Conclusion

In closing, I wish to thank the teachers for their hearty support and the willingness with which they have followed out every suggestion I have made. The value of such support is evidenced by the great progress which has been made.

I wish to thank the citizens for the manner in which they have helped in all matters relating to the schools. They have been ever ready to co-operate with the teachers whenever called upon to do so and this fact has helped mightily to better the condition of the schools in this town.

Whatever progress is made in the schools of a community is due in a large measure to the school board. A school board composed of men who are interested in everything tending to promote the welfare of the schools, who keep themselves well informed of school legislation, and who are interested in every civic improvement naturally does more for the betterment of the schools than any other factor affecting school advancement. It has been the good fortune of the townspeople to have a school board composed of

three such men and it has been my pleasure to be associated with them in school work. Whatever has been accomplished is due entirely to their efforts.

Respectfully submitted,

W. S. McNAMARA,

Supt. of Schools:

**Report of the
Principal of the Dixfield High School**

To W. S. McNamara,
Supt. of Schools:

It is with pleasure that I submit my second annual report on the work and conditions of the Dixfield High School.

The school year opened Sept. 10, with an enrollment of thirty in the high school. The seating capacity of the high school at that time was twenty-four. We struggled through six weeks with six pupils using chairs, but this was not conducive to good work or very much of it. Seats finally arrived and we were able to accomadate all the students under favorable conditions. During the term three students left school and one entered, making the total registration twenty-eight at the close of the term.

The average attendance for this term was very unsatisfactory, being only 24.85 or 85.7%. At first sight this seems extremely low, but if three students were removed a good average attendance would be shown. The reason for most of the absences was illness.

The winter term opened Dec. 31, with twenty-five registered. Since that time one student has left. The average attendance thus far this term is 94%.

In outlining the work done it seems fitting to give the course of study as last year's report did not contain one. It is as follows:

College Preparatory Course English Scientific Course

FRESHMAN

English.....	5 hrs.	English.....	5 hrs.
Algebra	5 "	Algebra	5 "
Latin.....	5 "	Phys. and Com. Geog.,	5 "

*Optional

The above is the course as given at the present time with the exception of Solid Geometry. Occasional changes are made to meet the demands which often arise. This course of study is well balanced and gives the pupil who is fitting for college those branches of study required for entrance to college. For those who will not pursue higher education it gives an equal opportunity to become acquainted with those branches which are closely related to every-day events. Owing to the fact that the teaching force is made up of the principal and but one assistant all those branches cannot be taught in the best possible manner, but special attention is paid to the languages, science and mathematics.

It is the desire and ardent effort of the teachers to put Dixfield High School on a higher plane of education than it has ever been before. In order to do this, more work must be done by the pupil and the quality of the work must be better. I believe that the school at the present time has attained a higher standard than ever before in its history, although it is still far from the desired goal. In order to reach this goal we must have the hearty co-operation of the parents, especially in regard to home study which is the greatest problem we have to deal with.

The high school library now contains ninety-nine volumes and gives the students direct access to the works of many of the world's greatest writers and thinkers. The public library also makes possible for the students to get much valuable reading material.

The laboratory equipment has been increased during the year by some apparatus which aids materially in the chemistry work.

At the present time recitations have to be held in the laboratory and it is impossible to make the laboratory period in chemistry as long as it should be. This condition does not allow us to obtain the best results from our work

and we trust the time is near when we may have a recitation room in addition to the laboratory.

We are preparing an entertainment to be given in the near future and a drama to be given in May. The proceeds will be used in paying for the piano which the school league purchased. We ask the aid of every citizen in our efforts to pay for this piano.

The high school is very fortunate in having the services of Miss Adeline E. Drew who comes to us from Smith College. She has high standards and requires thorough work. The Latin, English and the history courses are taught by Miss Drew, while the remainder of the subjects shown in the course of study are taught by the principal.

In connection with this report I wish to invite the keenest interest of the citizens in the work of the schools. We invite their investigation and criticism of our work. In a large degree the future prosperity of, and the betterment of, social conditions in a community depend upon the education and training that the schools of the community afford and for this reason we ask that the interest of the community in its schools be increased.

Before closing I wish to call attention to the work done by Mr. Dockham in this building. He is untiring in his efforts to have every part neat and clean and there is never any complaint about the temperature, for he is here very early in the morning and does not leave until late at night. Such a janitor is very difficult to find and I hope that Mr. Dockham remains with us in his present capacity for many years.

In closing, Mr. Superintendent, I wish to thank you in behalf of the teachers and myself for your help and the interest you have shown in the welfare of the school and in the advancement of education.

Respectfully submitted,

PARKER M. COOPER, *Principal.*

Truant Officer's Report

To the Superintendent of Schools, Dixfield:

I herewith submit the following report of my services as truant officer for the school year ending February 1, 1913.

No. of cases of absence from school investigated.....	100
No. of truants returned to school.....	40
No. of excusable absences	60

I was called to the Center district twice and Towle district once.

Respectfully yours,

G. W. DOCKHAM,

Truant Officer.

Warrant For Annual Town Meeting

STATE OF MAINE:

OXFORD, S. S.

To Joseph P. Edmunds, a constable of the town of Dixfield, in said county.

Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Dixfield qualified by law, to vote in town affairs to assemble at Tuscan Opera House in Dixfield village in said town of Dixfield on the first Monday of March, A. D. 1913, being the third day of March, at ten o'clock in the forenoon to act on the following articles, to wit:

- Article 1st To choose a Moderator to preside at said meeting.
- 2d To choose a Clerk for the ensuing year.
- 3d To choose Selectmen, Assessors and Overseers of the Poor for the ensuing year.
- 4th To choose a town Treasurer for the ensuing year.
- 5th To establish a rate for collecting taxes and to choose a Collector of taxes for the ensuing year.
- 6th To see if the town will vote to choose one or more Road Commissioners for the ensuing year.

- 7th To choose one or more members of the School Board.
- 8th To choose all other town officers for the ensuing year.
- 9th To see if the town will vote to accept the report of the Municipal Officers for the year ending February 12th, 1913.
- 10th To see if the town will vote to authorize and direct the Municipal Officers to transfer unexpended balances of appropriations from the past fiscal year to the same accounts for next year.
- 11th To see what sum of money the town will vote to raise for the maintenance and support of common schools, to purchase school books and supplies, to repair school houses, permanent school fund, to pay outstanding time orders due, to pay interest on outstanding time orders, to pay Municipal Officers, including Selectmen, Treasurer, Clerk, Tax Collector, Constable, School Committee, Truant Officer, Dog Constable, to pay hydrant rental, public library, to care for the poor, to repair roads and bridges, interest on cemetery funds and all miscellaneous expenses and defray all other charges.
- 12th To see if the town will vote to continue the Class "A" of Free High School and how much money the town will vote to raise for the support of the same.
- 13th To see if the town will vote yes or no upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine for the year 1907 as amended by Chapter 69 of the Public Laws of 1909, relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1913.

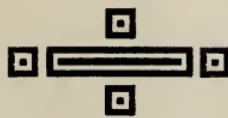

- 14th To see if the town will vote to raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$400.00 being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69 of the Public Laws of 1909, or such sum of money as it see fit.
- 15th To see if the town will vote to continue Union School District with town of Mexico.
- 16th To see how much money the town will vote to raise for the proper observance of Memorial Day.
- 17th To see what sum of money the town will vote to raise to pay the salary of the Union District School Superintendent for the united school districts of Dixfield and Mexico for the fiscal year 1913-'14.
- 18th To see if the town will vote to continue the school in the Dunn district.
- 19th To see if the town will vote to take and pay for four electric lights to be placed on the Dixfield Street of East Dixfield.
- 20th To see if the town will vote to accept of the town way as laid out by the Selectmen, commencing at a point opposite the house of A. D. Wentworth and running to the house of Willis W. Waite.
- 21st To see if the town will vote to enlarge Greenwood Cemetery and what sum of money if any the town will vote to raise to buy land for the same, or act in any way in relation thereto.

- 22d To see what sum of money if any the town will vote to raise for the purpose of fencing the Cemetery on Severy Hill or act in any way in relation thereto.
- 23d To see if the town will vote to fix the salary of the Truant Officer.

The Selectmen give notice that they will be in session for the purpose of revising and correcting the list of voters at Tuscan Opera House at nine o'clock in the forenoon on the day of said meeting.

Given under our hands at Dixfield, this 12th day of February, A. D. 1913.

WARRANT FOR ANNUAL TOWN MEETING

COUNTY OF OXFORD, SS.

STATE OF MAINE

To JOSEPH P. EDMUNDS, a Constable of the Town of Dixfield, in said County,

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of Dixfield, qualified by Law to vote in town affairs, to assemble at Tuscan Opera House in Dixfield Village on the first Monday of March, A. D. 1914, being the second day of March, at ten o'clock in the forenoon, to act on the following articles, to wit:—

- ART. 1 To choose a Moderator to preside at said meeting.
- ART. 2 To choose a Clerk for the ensuing year.
- ART. 3 To choose Selectmen, Assessors and Overseers of the Poor for the ensuing year.
- ART. 4 To choose a Town Treasurer for the ensuing year.
- ART. 5 To establish a rate for collecting taxes and to choose a Tax Collector.
- ART. 6 To see if the town will choose one or more Road Commissioners for the ensuing year.
- ART. 7 To choose one or more members of the School Board.
- ART. 8 To choose all other town officers for the ensuing year.

- ART. 9 To see if the town will vote to accept the report of the Municipal officers for the year ending Feb. 12, 1914.
- ART. 10 To see if the town will vote to authorize the Municipal Officers to transfer unexpended balances of appropriations from the past fiscal year to the same accounts for next year.
- ART. 11 To see what sum of money the town will vote to raise for the maintenance and support of Common Schools, to purchase School Books and Supplies, to repair Schoolhouses, Permanent School Fund, to pay outstanding time orders due, to pay interest on outstanding time orders, to pay Municipal Officers, including Selectmen, Treasurer, Clerk, Tax Collector, Constable, School Committee, Truant Officer, Dog Constable, to pay Hydrant rental, Public Library, to care for the Poor, to repair Roads and Bridges, interest on Cemetery Funds, to raise money for Fire Protection, and all miscellaneous expenses and defray all other town charges.
- ART. 12 To see if the town will vote to continue the Class "A" of Free High School and how much money the town will vote to raise for the support of the same.
- ART. 13 To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid, as provided in section 20 of chapter 130 of the Public Laws of 1913.
- ART. 14 To see if the town will appropriate and raise the sum of \$533.00 for the improvement of the section of State aid road as outlined in the report of the State Highway Commission, in addition to the amounts regularly raised for the care of ways, highways and bridges; the above amount being the maximum amount which the town is allowed

to raise under the provisions of section 19 of chapter 130 of the Public Laws of 1913.

- ART. 15 To see if the town will vote to continue the Union School District with the town of Mexico for a period of three years.
- ART. 16 To see if the town will vote to continue the school in the Dunn district.
- ART. 17 To see if the town will vote to continue the school in the Severy Hill district.
- ART. 18 To see if the town will vote to continue the school in the Lancaster district.
- ART. 19 To see if the town will vote to continue the school in the Towle district.
- ART. 20 To see how much money the town will vote to raise for the proper observance of Memorial Day.
- ART. 21 To see what sum of money the town will vote to raise to pay the salary of the Union District School Superintendent for the united school district of Dixfield and Mexico for the fiscal year 1914-15.
- ART. 22 To see how much money the town will vote to raise to pay for Street Lights at East Dixfield.
- ART. 23 To see if the town will vote to raise one hundred dollars, or any part thereof for building a fence on the west side of Riverside Cemetery.
- ART. 24 To see if the town will vote to allow the Riverside Cemetery Association to charge a reasonable price for burying lots to all people not residents of the town.
- ART. 25 To see what sum of money, if any, the town will vote to pay the chairman of the Selectmen above what he already receives.
- ART. 26 To see if the town will vote to raise the sum of \$50.00 to build a fence on the road side of the Dunn Cemetery.
- ART. 27 To see if the town will vote to purchase the old Fair Ground building, so called, and raise money to pay for the same.

ART. 28 To see if the town will vote to accept the list of Jurors as prepared by the Municipal Officers.

The Selectmen give notice that they will be in session for the purpose of revising and correcting the list of voters at Tuscan Opera House at nine o'clock in the forenoon on the day of said meeting.

Given under our hands at Dixfield, this 12th day of February, A. D. 1914.

Wm. M. KIDDER,
FRANK BROWN,
ALBION HOLMAN,

Selectmen of Dixfield.

A true copy.

Attest: _____

Constable of Dixfield.

WILLIAM W. WAITE,

Town Clerk.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

It is the pleasure of the School Committee to recommend the following appropriations for the support of schools during the ensuing year.

We shall need an appropriation amounting to twenty-three hundred dollars (\$2,300.00) for the support of Common Schools. This amount includes the cost of instruction, janitor service, fuel, conveyance and tuition.

This amount exceeds the appropriation for 1913, due to a necessary increase in teachers' salaries, and to the Committee's desire to increase the length of the school year in the rural districts to 30 weeks. The length of the school year now being 26 weeks.

We shall need for books and supplies for the ensuing year the sum of three hundred dollars (\$300.00).

We shall need for repairs the sum of one hundred and fifty dollars (\$150.00).

For insurance we shall need the sum of one hundred and seventy-five dollars (\$175.00).

We shall need for lights in the High School Building the sum of twenty dollars (\$20.00).

For our proportion of superintendence during the ensuing year we shall need the sum of two hundred and ten dollars (\$210.00).

For the support of a "Class A" High School during the ensuing year, the town should vote to appropriate and expend the sum of one thousand dollars (\$1,000.00). Five hundred to be raised by the town. Under this class the town will be reimbursed to the amount of five hundred dollars (\$500.00).

Respectfully submitted,
WILLIAM W. WAITE,
GEORGE WALTERS,
WILL S. MARBLE,

School Committee, Town of Dixfield.

To the Superintending School Committee, Dixfield:

It is my pleasure to submit for your consideration my third annual report as Superintendent of the Public Schools of Dixfield.

ACCOMMODATIONS

Last year it was necessary to use the upper hall in the high school building to relieve the congestion in the intermediate and grammar grades. To do this we were obliged to hire another teacher and give her the fifth and sixth grades, thus relieving congestion somewhat but, as was stated in

last year's report, the conditions in this upper hall are not at all favorable. The teacher and pupils must be disturbed every half hour by classes passing from the high school room to the laboratory, and also by pupils passing to and from the high school and the seventh and eighth grades; the light is very poor and it is difficult to regulate the temperature. Notwithstanding these undesirable features, the work of the grades went on much more rapidly and there was general satisfaction, in view of the fact that the arrangement would be only temporary. This year, however, the space in the hall is overcrowded and we feel that better accommodations must be had at once, especially since the high school is overcrowded also.

The high school room is capable of accommodating about thirty students and this year it has been necessary to crowd forty-five students into the room. With a good prospect of an increase in attendance next year it is apparent that some measures must be taken to relieve the congestion, for there is every outlook of increasing attendance in our high school from year to year, and it is simply an impossibility to accommodate any more students under the present conditions.

I would suggest that a two-room addition be made to the building, so that we can accommodate the fifth and sixth grades in one room and the overflow from the high school in the other. Such an addition would be sufficient for many years to come and would give much more satisfaction to all concerned, than does the present unsuitable arrangement.

It may be argued that our increase in the high school is due to the large number of students from other towns, who pay tuition, and that we could get along without an addition if we refused to take out-of-town students. This can be readily answered by the statement that it is necessary now to make different arrangements for our grades which are overcrowded, and it will be necessary to build on an addition whether or not we take the high school into consideration. Then again the money received

from tuition would more than pay the interest on an amount sufficient to build an addition large enough to relieve the congestion in both grades and high school.

This matter must be given attention and one visit to our school building will convince even the most skeptical that something must be done and at once, for it will be utterly impossible, another fall, to take care of the school children with the present accommodations.

COMMON SCHOOLS

Our common schools opened last fall with but one change in the teaching force, a fact which speaks well for the schools of the town. It must be generally understood that it is detrimental to any public school system to have an entire change of teachers each year, for a teacher is just getting a fair start at the end of her first year. She has become acquainted; she begins to know intimately each boy or girl committed to her care, and she understands their strong points as well as their weak ones. It is obviously better, then, to have with us teachers who have been connected with our schools for a number of years and the fact that in Dixfield most of our teachers have been with us three years and one five years, shows that our schools must be making some progress.

A course in music was added to the curriculum at the beginning of the present school year and the results are even now apparent. Music trains one of the most important senses to fineness of discrimination; and it enriches culture by giving enjoyment and by affording full expression to feelings which would otherwise be dumb. Musical culture is a part of a complete education, giving to the individual additional power and means of enjoyment, and this culture is certainly a legitimate part of school work, Miss McCrum, who has charge of this department, is working hard to bring about a condition of grading in the work, but this will take some time as we have never before had a systematic course of training in this line.

It is a pleasure to state that our teachers are all doing excellent work. They have exhibited a genuine interest in everything tending to promote the welfare of the schools, and are always very willing to adopt any suggestions made to them. Their relations with each other constitute one of the most pleasant features of the work here, and the spirit of harmony that pervades the entire building augurs well for the schools and school work.

HIGH SCHOOL

We were extremely fortunate in being able to retain Mr. Cooper this year. This is Mr. Cooper's third year with us and his services grow increasingly valuable each year. Under his administration the attendance has increased over one hundred per cent and the standard of work has grown better each year. I trust that we can keep him with us many more years.

It is seldom that an inexperienced teacher grasps the situation and works as efficiently as Miss Connor does. She has done a great deal to raise the standard of excellence in her departments and is a valuable help to Mr. Cooper in everything pertaining to high school work. We are very anxious to retain her.

Last year at the prize speaking contest held at Mexico, in which the high schools of Rumford, Mexico and Dixfield competed, Miss Florence Duplisa won the first prize. This brings the cup to Dixfield High School for one year and it must be won three times before it becomes the property of the school. It is a source of much gratification to have a member of our high school bring such recognition to her school, and it speaks well for the progress our high school is making, not alone in strictly high school work, but in outside activities which do so much to create an appreciative interest in the school and in efforts made for its betterment.

It has been customary in many high schools throughout the state for the graduating class to take a trip to Wash-

ington, D. C., usually during the spring recess. Such a trip has great educational value since it brings the student into contact with many of the activities of everyday life, gives him a better idea of the manufacturing and commercial advantages of our larger centers of population, and brings him closer to the problems of our complex civilization of the present day. Travel is education, and surely a trip to our capital at Washington, combining as it does educational and sentimental values, must inspire the student to a better realization of what our great country is and what is due from each one of us as one of its citizens.

RURAL SCHOOLS

The rural schools in town have just completed a most successful term, and I believe they are the best they have been in years. We were very fortunate in our choice of teachers, for they have been very anxious to become thoroughly acquainted with school work and have been very willing to follow out any suggestions or ideas given to them.

This year the rural teachers have adopted the same method of keeping plans of work as are used by the teachers in the village and are using the same method in reading. In order to become better acquainted with new methods of reading, etc., each teacher took a visiting day which was spent at the Central Building in the village. Here they had an opportunity of watching the work and getting ideas from older teachers. In addition to the above each rural teacher is now taking one or more teachers' magazines and a great deal of the added interest displayed in the work may be traced to this source.

It is planned to have the school year in the rural districts increased to thirty weeks. It is manifestly unfair to have a school year of thirty-six weeks in the village and only twenty-six weeks in the rural districts, and with this in mind the school committee has decided to make the

change. It is to be hoped that greater benefits will be derived from such increase; that the children will be inspired to better attendance and better work, and the parents to closer co-operation with the teacher in all that makes for better schools.

ATTENDANCE

The attendance this year shows the same percentage as that of last year, which is rather low for a town like Dixfield. Conditions have been ideal and we are still unable to gain the desired increase to over 90 per cent. There is no reason why the attendance in our schools should be as low as 88 per cent and if the parents could realize just what it means, financially as well as from an educational standpoint, they would exercise more care in the matter.

Children who do not attend regularly fall behind in their work, for they cannot possibly keep up with their respective grades, when they are absent so much, and they increase the teacher's work because such children must receive special attention and be given special lessons until they are able to keep up with the regular work of the grade. In most instances the parents who complain that their children are not getting ahead fast enough will blame the teacher and the school system when the fault is due entirely to the parents' lack of interest in the child's education. If we wish our schools to reach the highest standard of efficiency, we must have better attendance.

Mr. Dockham makes an ideal truant officer, for he is intimately acquainted with most of the children and knows just what steps to take to see that there is no truancy. His position at the school building makes him a most desirable man for the position, for he is on hand at all times during the day ready for call. I trust that he may continue in his present capacity for many years, for he is the right man for the right place.

REPORTS AND STATISTICS

The Lancaster, Dunn, Severy Hill and Towle schools have each had an average attendance of less than eight during the past year. According to Section 2, Chapter 15, Revised Statutes of 1903, these schools must be suspended unless the town votes to maintain them during the ensuing year.

Following the superintendent's report are the report of the high school principal, the supervisor of music, the truant officer, the statistical table of attendance, the teachers' directory and the financial statement. I would ask that these be given careful attention.

This year the appropriations asked for will be several hundred dollars more than was asked for last year. This is due to the fact that we are increasing the length of the school year in the rural districts and to the fact that we have been obliged to pay higher salaries in the rural schools and in the village. A casual glance over the reports of the past few years will show that in 1912 we made the appropriations over \$1,000.00 less than the year before and that this year, although there is an increase, the amount asked for is less than the amount raised in 1911.

CONCLUSION

In closing, I wish to express my appreciation of the manner in which the teachers have supported me. Every suggestion or idea met with hearty approval and indorsement from them and I feel that we owe them a great deal for the progress which has been made.

The citizens have been ever ready to help the work of the schools by co-operating in every way with the teachers and the school officials. The encouragement of their support has been of great benefit to all connected with the schools and I trust that the same friendly spirit of co-operation may continue.

I wish to thank the members of the school board for the manner in which they have assisted me in my work. Their help has been of inestimable value to me to all times. It is to them that we owe, in a great measure, the present progress and prosperity of our schools, for they have labored with unceasing persistence in performing the various duties of their office, and to-day, throughout the whole school system, the results they have accomplished are apparent.

Respectfully submitted,

W. S. McNAMARA.

REPORT OF THE PRINCIPAL OF DIXFIELD HIGH SCHOOL

To the Superintendent of Schools:

In this, my third annual report of the high school, I shall endeavor to inform you concerning the work being done and the conditions under which it is carried on; to call your attention, as well as that of all citizens of the town, to the inconveniences under which the pupils work, and to enumerate some improvements that must be made to make Dixfield High School what the citizens desire and expect of it.

During the spring term (1913) we had an enrollment of 24 with an average attendance of 22.32. At the end of the term we graduated two, leaving twenty-two undergraduates. All of these but two returned for the fall term.

The high school room at that time contained seats for thirty pupils and was considered sufficiently large.

The fall term opened September 16, with an enrollment of 43. This required that thirteen occupy chairs until desks could be provided. There being several unoccupied desks in the grammar school room, thirteen were transferred to the high school room and arranged as advantageously as possible, five being placed against the wall which puts the occupant in a very inconvenient position.

Some of the seats are entirely too small and in addition to that only about half of them have been fastened to the floor. During this fall term three (3) citizens visited the high school and saw the conditions.

The winter term opened with a registration of 46, two of which dropped out, leaving 44 and still one occupying a chair.

There are two other inconveniences that I must not overlook. First, in passing to the laboratory, the only recitation room we have and one in which on cold, windy days it is impossible to inhabit, and also in passing to the basement it is necessary to go through the hall occupied by the fifth grade, thus disturbing that school many times each day.

Secondly, the high school room contains forty-five or six people every day and has no system of ventilation except windows. I have done my best to keep the room ventilated, but I find that on most days it is utterly impossible.

Since it is necessary to have a room for the fifth and sixth grades, that now occupy the upper hall, where the light, heat and everything else is bad, I would suggest an addition to the building; the first floor to be occupied by the fifth and sixth grades and the second floor to be used by the high school. Something of this sort must be done or we will be obliged to give up our tuition pupils, for we cannot put the pupils of the town to any disadvantage on account of out-of-town pupils.

Now a little financial argument in favor of an addition. At the present time we have thirteen tuition pupils. Last fall we had the same number and in all probability will have the same this spring with an increase next year. That means an annual income of \$390. This would pay the interest on addition costing \$3,000 and leave a balance of \$240. Therefore, why can the town not afford to make an appropriation for an addition?

More pupils are taking advantage of the opportunity of a high school education in this town than ever before in its history.

If the tax-payers of the town want to be as progressive as the younger element of the town they cannot do differently than take action in this present annual meeting in regard to this vital question.

I might use the entire space allotted for the report giving statements of actual facts which would argue in favor of this proposed addition, but I will close with that part of my report by inviting all citizens to come and see what we are striving to do and under what conditions we are laboring.

The attendance during the fall term was 95.1 % which is good considering the distance that many of our pupils have to come.

Thus far, this winter, the attendance is better than in the fall.

The course of study is the same as last year with the introduction of General Science in the English Course for the first year.

Outside of the regular work of the classes the high school during the past year raised money by means of a drama and finished paying for a piano. At the present time another drama is being prepared, the proceeds to be used by the Senior Class for a trip to Washington. We sincerely hope that all will assist the class in this venture.

It gives me great pleasure to report the success of the high school in the prize speaking contest held at Mexico, April 11, 1913, in which Rumford, Mexico and Dixfield contested. Miss Duplisea won first prize, contesting against the best that the two larger schools could furnish. Under very adverse conditions, Miss Duplisea repeated the feat in Dixfield Feb. 6, 1914.

More interest was shown this year than for the past two years and now that the people of Dixfield have had an opportunity to witness one of the contests, interest in public speaking is running high. Next year there should be no reason why the school cannot have the required interest to make public speaking a school activity to be participated in by all.

The school is fortunate in having the services of Miss Regina Connor, who comes to us from New Hampshire State College. The work of Miss Connor is very satisfactory and her services should be retained, if possible.

The salary of assistants in high schools is astonishingly small, which accounts for the frequent changes. It is the usual thing for a grade teacher with only a Normal training to receive as much as the assistant receives. After a person has paid board and other necessary expenses, what is left of twelve dollars? The salary does not keep pace with living expenses and salaries paid in other lines of work.

The instruction of the high school pupils at the present time is costing the town \$342 per year. Instruction at the rate of $21\frac{1}{2}$ cents per week for each child is certainly economical. I believe that under the present conditions, Dixfield can solve the problem of frequent changes without the cost being excessive.

The condition of the high school in general is conducive to growth both in quality and quantity. I believe that it is the best that it has been for the past three years.

In conclusion, let me thank you, and through you, the school board, for the support given me.

Respectfully submitted,

PARKER M. COOPER, *Principal*.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent of Schools:

I herewith submit my first report as Supervisor of Music in the Dixfield School.

The study of music is a new phase of work in the village school. The school committee thought that music should be one of the essentials of every child's education. With that idea in mind, I have endeavored to create in each individual a love for music.

All the grades were started on the same basis. In the

primary grade, there has been a remarkable change from the many monotones to sweet and musical voices. In the upper grades, the children have worked diligently to establish in their minds the fundamentals of music. By so doing, they have been able to read readily and sing correctly.

We are in hopes of having some regular music books in the near future, which will aid us greatly in our singing.

The high school have their daily chorus singing which is led by several of the students.

In closing, I wish to express my appreciation on the part of teachers and students who have taken such an interest in the work.

Respectfully submitted,

HILDA F. McCRUM.

REPORT OF TRUANT OFFICER

DIXFIELD, MAINE, Jan. 1, 1914.

To W. S. McNamara, Superintendent of Schools for the Town of Dixfield:

SIR: I respectfully submit my annual report as truant officer for the Town of Dixfield, for the year ending January 1, 1914.

Number of cases investigated	107
Number scholars returned to school	47
Excusable absences	60

Respectfully yours,

GEORGE W. DOCKHAM,

Truant Officer for the Town of Dixfield, Maine.
